PLANTS

FEB 18 1936

U. S. DEPARTMENT OF AGRICULTURE

● Here are some views taken in my plantation office. This picture at the top is a view of my private office and the two pictures at the bottom show two of the other offices and a portion of my office force.

To handle the many, many thousands of orders received during the planting seasons requires an office force of sufficient size and experience so that all orders will be handled immediately and shipments must be made accurately on the same day your orders are received.

PLAY SAFE WITH FULWOOD'S ♦ ♦ ♦ GUARANTEE

I positively guarantee all of my plants to be exactly as described in this catalog. I guarantee them to be fresh, pure, genuine and unadulterated. I guarantee them to be carefully selected with all plants pulled one at a time, counted and bundled right in the fields.

To my knowledge, I am the only plant grower pulling plants one at a time. I do this because I find I can be more certain that the quality of my plants is right as all plants are individually selected in the field right at the time of pulling. This plan has done much to help me build up my business as it has eliminated the possibility of poor sorting and customers receive only plants that are well developed, hardy and well rooted, free from runts, weeds, or trash. In the long run this really means that my plants are cheaper as it costs real money to ship runts and trash by mail or express.

My crates are the most expensive I can buy, but here also I feel I am saving you money as the plants will reach you in perfect condition and as the crates are so made that they are extremely light in weight you will not be paying for extra express charges for a batch of kindling wood.

Through my efforts express rates on plants have been greatly reduced and the express company has also reduced the rates for handling C.O.D. shipments, so that the C.O.D. costs are now the same as the post office charges for handling C.O.D. shipments.

My plant business is my sole support. Instead of running a general plantation and raising a few plants as a side line occasionally, I devote all of my time, efforts and facilities to the business of growing the finest vegetable plants my twenty-seven years of specialized experience will permit me to grow. Not being a "fly-by-night" grower and because I need your business, not only this year, but next year and during the years to come, I know I must deal with you fairly and squarely in every instance and make certain that my plants will be received by you in such condition that you will be able to see the difference not only in the plants when they are received, but also in the quality of the vegetables when they are grown.

When you purchase Fulwood's plants you will receive full count, no runts, no diseased plants and you will receive the exact varieties ordered.

P. D. FULWOOD.

FULWOOD'S PLANTS PRODUCE BUMPER CROPS

FULWOOD'S GENUINE FROST-PROOF CABBAGE PLANTS

You can make real cash—and plenty of it—in raising Cabbage from Fulwood's Genuine Frost-Proof Cabbage plants. You can easily raise from six to ten tons. Think of the profit you can make.

Set out all the Cabbage you can, as early as possible in your locality, and you will be the man with money in the bank when your crop matures.

Vegetables sold early in the season bring many times the price of those marketed several weeks later. Fulwood's Genuine Frost-Proof Cabbage plants produce full grown heads from two to three weeks before home-grown plants—and that's why they are real money-makers for the buyer.

Here at Tifton, Georgia, where my plantation is located, the soil and climatic conditions are ideally suited for growing tough, hardy, healthy cabbage plants in the open field during the winter and early spring. The plants make a slow but steady growth and when eight or ten weeks old they are extremely tough and hardy. In this condition they can be shipped to territory farther North and be planted in the open fields there a month or six weeks earlier than home-grown, hot-bed, or cold frame plants.

These Frost-Proof Cabbage plants will stand temperatures of 18 to 20 degrees above zero without injury. Freezing of the soil or covering of the plants with ice, sleet or snow after they have been planted will not injure them unless the temperature gets below 18 to 20 degrees.

Because my plants are so strong and healthy, and because they can safely be planted considerably in advance of home-grown plants, is the reason for their being able to make large, extra early crop—all ready for market during the time prices are high. Many unreliable growers are selling plants and calling them "Frost-Proof." In many instances these growers are located where they do not have frosts during the growing period and, therefore, the plants they are offering have never been subjected to the frosts.

Where my plantation is located we have light frosts all through the winter growing season and as all of my plants are grown right out in the open field, Mother Nature provides them with the strength and stamina to withstand cold temperatures. Be sure you buy Frost-Proof plants for a sure crop.

P. D. FULWOOD ♦ ♦ ♦ TIFTON, GEORGIA

This year I have acre after acre of the finest Cabbage plants I have ever had. Climatic conditions have been perfect and they are in unusually fine condition, being tough and hardy and ready to start growing in your ground whenever you can plant them in your locality. I treat all my seed before planting to prevent disease and as further precautions, I change my lands each year and spray the plants often during cultivation. Cabbage plants are ready for shipment any time from September 1st to June 1st.

My Cabbage plants should be set out the same time as my Onion plants and you can order them for shipment at the same time. Prices are the same as for Onion plants and I will gladly mix an order, shipping part Cabbage plants and part Onion plants, if you desire.

Varieties of Fulwood's Genuine Frost-Proof Cabbage Plants

EARLY JERSEY WAKEFIELD

Many market gardeners consider this the very best Cabbage grown. Its merits are many, among which are medium heads, for an early variety, small outside foliage, and uniformity of crop. Heads are white, solid and tender. This variety always brings a good price because of its earliness and it is therefore a good money-maker. See prices on page 8 and on back of order blanks.

See Special Garden
Collections on Page 18

FULWOOD'S PLANTS PRODUCE BUMPER CROPS

COPENHAGEN MARKET

A fine Cabbage. This variety is nearly as early as the Jersey Wakefield. The stem is short, has large round and solid head with few outer leaves, of an upright growth. My stock of this popular variety is extra early, uniform and dependable. See prices on page 8 and on back of order blanks.

CHARLESTON WAKEFIELD

This Cabbage is much like the Jersey Wakefield. It has a much larger head, however, and is about ten days later. This is a desirable variety for shipping purposes as the heads are solid and firm. It is a strong favorite with growers for a main crop. See prices on page 8 and on the back of order blanks.

EARLY FLAT DUTCH

One of the oldest varieties. The head is unusually large and flat, tender and fine grained. My strain of this Cabbage is of the best to be had. It is excellent for a tonnage crop because of the large heads. See prices on page 8 and on the back of order blanks.

GOLDEN ACRE

This variety has the same general description as the Copenhagen Market—and, in fact, is a strain of that variety. Some growers prefer this variety, which is priced the same as my other varieties. **See prices below and on back of order blanks.**

SUCCESSION

The earliest of the flat-head varieties. A sure header and a very hardy grower both in cold and warm weather. This is grown very extensively in the South and gives universal satisfaction. Heads are of uniform shape, not too flat, and exceptionally solid. **See prices below and on the back of order blanks.**

YELLOW S OR WILT RESISTANT CABBAGE PLANTS

For use in some of the Northern states, where the plant disease called Yellows exists, I am growing and can furnish Wilt Resistant plants in either of two varieties—Wisconsin's All-Season or Marion Market. These Yellows Resistant plants are sold at 25c per thousand more than my prices for other regular varieties of Cabbage plants. These Yellows Resistant plants are ready for shipment March 20th and thereafter.

FULWOOD'S CABBAGE PLANT PRICES

ALL VARIETIES AT SAME PRICE

All Cabbage plants are ready for shipment any time from September 1st to June 1st, and are tied in bunches of 50 plants. When ordering Cabbage plants be sure and order some Onion plants at the same time; both Cabbage and Onion plants are priced the same and I will gladly mix an order, shipping part Onion plants and part Cabbage plants, if you desire.

Fulwood's Genuine Frost-Proof Onion Plants

Like all Genuine Fulwood Vegetable Plants, my Onion plants are grown, packed and shipped with the utmost care and precision. Plants are grown from the finest seed I can obtain. All seed is treated before planting and plants are sprayed during the growing period and thus you are assured of good, healthy, strong plants. Because they are grown in the open field and are subject to light frosts during the growing period, they are Genuine Frost-Proof plants and will stand temperatures as low as 18 to 20 degrees above zero without injury. Onions grown from Fulwood's Genuine Frost-Proof Onion plants are also an excellent money crop, as they can be marketed at least two weeks in advance of Onions grown from sets and way ahead of Onions grown from seed. Furthermore, my plants will make much better Onions than those grown from sets, the Onions being larger and they do not run to seed. They will also keep much better when cured and stored.

Fulwood's Onion plants can be shipped any time from September 1st to June 1st.

My Onion plants should be set out the same time as my Cabbage plants and you can order them for shipment at the same time. Prices are the same as for Cabbage plants and I will gladly mix an order, shipping part Onion plants and part Cabbage plants, if you desire.

P. D. FULWOOD ♦ ♦ ♦ TIFTON, GEORGIA

Varieties of Fulwood's Genuine Frost-Proof Onion Plants

YELLOW BERMUDA

This is the most widely grown of all Bermuda Onions. No sweeter Onion is grown than this, and it always has a ready market and is a large producer and a real money-maker. Whether grown for marketing or for your own table use, you can make no mistake in ordering this variety.

CRYSTAL WAX BERMUDA

Probably the best selling Bermuda Onion on the market because of its exceptionally attractive appearance. It has the same general appearance as the Yellow Bermuda except that it is crystal white and waxy. Because of its sweet, mild flavor, like the Yellow Bermuda, this is an excellent eating Onion.

SPANISH VALENCIA (Or Sweet Spanish)

This variety can be grown in warm climates as successfully as the Bermuda varieties and much more successful in Northern climates. This is a large globe-shaped brownish yellow Onion of large size. The flesh is white, fine-grained, mild and sweet enough to be eaten like an apple. A good keeper and fine shipper when properly cured. Has been known to yield 1,200 bushels per acre.

ONION PLANT PRICES

Fulwood's Genuine Frost-Proof Onion plants are ready for shipment any time from September 1st to June 1st, following. All Onion plants are tied in bunches of 100 plants. Onion plants are priced the same as Cabbage plants, for all varieties, and should be set out the same time. I will gladly mix an order, shipping part Onion plants and part Cabbage plants, if you desire.

Other Fulwood's Genuine Frost-Proof Plants

Ready Now

FULWOOD'S BROCCOLI PLANTS

GREEN SPROUTING VARIETY—A sufficiently new vegetable to bring a good price, especially in city markets where the demand is growing fast. Many smaller heads will form after central head has been removed, and will keep bearing from eight to ten weeks. Prices by parcel post, postpaid: 100 Plants for 75c; 500 Plants for \$2.00; 1,000 Plants for \$3.00. Prices for shipment by express, collect: Any quantity, \$2.50 per 1,000 plants.

FULWOOD'S KOHL RABI PLANTS

EARLY PURPLE VIENNA VARIETY—Extremely early. Buds grow the size of a small apple. The flavor is a combination of Cabbage and Turnip flavor. Kohl Rabi is at its best when grown from plants. Prices by parcel post, postpaid: 100 Plants for 75c; 500 Plants for \$2.00; 1,000 Plants for \$3.00. Prices for shipment by express, collect: Any quantity, \$2.50 per 1,000 plants.

FULWOOD'S BRUSSELS SPROUTS PLANTS

LONG ISLAND IMPROVED VARIETY—Tiny little Cabbages which grow in sprouts close on the stalk at each leaf joint. Sweet, tender and fine eating. Sprouts are from 1 to 2 inches in diameter. My plants will give you the best crop. Prices by parcel post, prepaid: 100 Plants for 75c; 500 Plants for \$2.00; 1,000 Plants for \$3.00. Prices by express, collect: \$2.50 per 1,000 for any quantity.

FULWOOD'S PLANTS PRODUCE BUMPER CROPS

Ready April
1st to June
15th.

Fulwood's Tomato Plants

GREATER BALTIMORE, MARGLOBE AND BONNIE BEST VARIETIES—I ship more Tomato Plants than any other grower, ship-

ping them by the millions to practically every state in the Union to both large and small canning factories, truck farmers, gardeners and to individuals who grow Tomatoes for their own use. I have developed these varieties to a very high state and my plants are exceptionally rooted, large and stocky. They are all open

field grown and are acclimated to outside temperatures and will start growing quickly and produce rich, red ripe Tomatoes much earlier and more surely than home-grown plants. Tomato plants are not frost-proof, however, and should not be ordered shipped until all danger of killing frost is passed. My Tomato plants are not perishable and when packed as I pack them in deep, damp moss they will keep in good condition for several days. Order Bonnie Best for early market and home garden use. The Marglobe is wilt-resistant and the fruit is of medium size, solid, good color and a good shipper and will make a fine main crop. The Greater Baltimore variety is a mid-season Tomato and is used by canners more than any other, producing a very heavy crop of large solid Tomatoes and a sure cropper.

In growing my Tomato plants I use only the very finest certified seed I can buy and plant only on new land. The plants are sprayed continuously to prevent disease and when ready for shipment plants are pulled one at a time and the roots are well wrapped in damp moss. These Tomato plants can be shipped successfully to all parts of the United States.

Prices by parcel post, prepaid: 100 Plants for 50c; 500 Plants for \$1.75; 1,000 Plants for \$2.50. Prices by express collect: 1,000 Plants to 4,000 Plants at \$1.75 per 1,000; 5,000 Plants to 9,000 Plants at \$1.50 per 1,000; 10,000 Plants and over at \$1.25 per 1,000.

FULWOOD'S SPRING PLANTS

Not Frost Proof—Ready April 1st
to June 1st

Fulwood's Pepper Plants

WORLD BEATER AND CALIFORNIA WONDER VARIETIES—Both of these varieties are exceptionally sweet and mild, are good shippers and vigorous growers. Set out a quantity of

either or both of these varieties and have Pepper on the market much earlier than Peppers grown from seed. These plants are full bodied and strong and you will be much more sure of a full crop than if you depended upon growing from seed. Prices by parcel post, prepaid: 100 Plants for 75c; 500 Plants for \$2.00; 1,000 Plants for \$3.00. Prices by express, collect: \$2.50 per 1,000 for any quantity.

FULWOOD'S HOT PEPPER PLANTS

LONG RED CAYENNE VARIETY—Prices by parcel post, prepaid: 50c per dozen plants. Write for prices on large lots.

Fulwood's Eggplant Plants

BLACK BEAUTY VARIETY—I specialize on this one variety because of its many merits. It holds its color especially well, grows very large, has good shape and is of unusually good quality. The Black Beauty variety is naturally early and if you will grow it from my fine plants your crop will be just that much earlier. Prices by parcel post, postpaid: 100 Plants for 75c; 500 Plants for \$2.00; 1,000 Plants for \$3.00. Prices by express, collect: \$2.50 per 1,000 Plants in any quantity.

See Special Garden
Collections on Page 18

FULWOOD'S SPRING PLANTS

(Not Frost-Proof). Ready April 1st to June 1st.

FULWOOD'S IMPROVED PORTO RICO SWEET POTATO PLANTS

Southerners who know their Yams will appreciate this improved Porto Rico as the finest ever. People in the East and Middle West who know Sweet Potatoes only as being small, dry and yellow have a real treat in store for them

if they will try this luscious variety. My improved Porto Rico always has a deep rich red meat that is especially sweet and tasty. It is two to three weeks earlier than most yams and is an enormous yielder and keeps especially well. Northern markets and curing houses pay top prices for this variety. Prices by parcel post, prepaid: 500 Plants for \$1.75; 1,000 Plants for \$2.50. Prices by express, not prepaid: 1,000 Plants to 4,000 Plants at \$2.00 per 1,000; 5,000 Plants to 9,000 Plants at \$1.50 per 1,000; 10,000 Plants and over, \$1.25 per 1,000.

FULWOOD'S BIG STEM JERSEY SWEET POTATO PLANTS

This variety of Sweet Potatoes is a perfected variety of a kind of Sweet Potato Northern growers are most familiar with. All plants are sturdy, well rooted and will assure an excellent crop. Prices by parcel post, prepaid: 500 Plants for \$1.75; 1,000 Plants for \$2.50. Prices by express, not prepaid: 1,000 Plants to 4,000 Plants at \$2.00 per 1,000; 5,000 Plants to 9,000 Plants at \$1.50 per 1,000; 10,000 Plants and over at \$1.25 per 1,000.

FULWOOD'S PLANTS PRODUCE BUMPER CROPS

How Fulwood's Plants Are Packed

Assembling Shipping Crates

Onion Plants In Crate

Left—Cabbage Plants In Crate

After I have grown the finest plants possible to grow, it would be downright foolishness to pack them and ship them in any manner whereby I would run the slightest chance of their not reaching you in perfect con-

dition. I use the best and most expensive crates I can buy and I have perfected my packing and shipping methods to the point where I can fully guarantee all my plants will arrive at destination in perfect condition for planting. All plants are pulled one at a time, sorted, counted, bundled, packed, crated and shipped, all on the same day. This insures maximum freshness at the time of shipping. All shipments are made on the same day orders are received, except when unusually bad weather prohibits getting into the fields for a day or two. I could pull my plants several days ahead and keep them in cold storage, as some plant growers do, but such methods would prohibit my iron-bound guarantee of all plants arriving in perfect condition.

TWENTY-SEVEN YEARS OF PLANT GROWING EXPERIENCE

My twenty-seven years of experience has taught me much about sorting, bundling, packing and crating and when your plants arrive you have a full count—they will be correctly packed in light-weight, wire-bound, strong, well-ventilated crates and there will be no runts or damaged plants. My shipping crates are assembled right here with my own machinery. I have designed the correct kind of crates for each plant and all shipments will arrive at destination with crates and contents intact.

TWENTY-SEVEN YEARS OF PACKING AND SHIPPING EXPERIENCE

The kind of plants, the season of the year, and other factors to be considered determine whether the roots of the plants shall, or shall not be packed in damp moss and wrapped in waxed paper. Such packing is not always advisable and inasmuch as I guarantee my plants to arrive in perfect condition, I reserve the right to select the most proper method of packing at the time shipments are made.

TWENTY-SEVEN YEARS' EXPERIENCE SATISFACTORILY SERVING PLANT BUYERS

All Genuine Fulwood Plants are perfectly produced and shipped—they are priced exceptionally low, especially for plants of such high quality. They will produce vegetables of the very highest quality at the very earliest possible time. Place your plant orders where you can obtain such dependable service from a really responsible grower.

USE ORDER BLANKS IN CENTER OF CATALOG

Tear out one of the order blanks in this catalog, fill it in carefully, being sure to write your name and address plainly and mail it to me with your remittance and you will receive the finest plant satisfaction you have ever received. You'll be notified by mail the day your plants are shipped.

PACKING HOUSE

Largest Packing House for vegetable plants in the world, contains
45,000 sq. ft. of floor space.

LOUISA, VA., April 23, 1934.

Mr. P. D. FULWOOD,

Dear Sir: The tomato plants arrived Saturday. Think I state a fact when I say I think them the best assorted and finest lot of plants of that grade that I have ever received. Many thanks.

Truly, C. E. WHISLER.

MT. AUBURN, IOWA, March 25, 1935.

P. D. FULWOOD, Tifton, Ga.

Dear Sir: I am writing you about the lovely vegetables we grew from the plants we ordered from you. We were the only people for miles around who had tomatoes, the nicest peppers and the loveliest cauliflower and dandy solid cabbage. We sold a lot of tomatoes and gave our neighbors just lots of different kinds. You certainly gave us a square deal. You can always count on us for your customers. I thank you for all the lovely plants. I am enclosing an order with this letter. Please hold over Spring Collection No. 3 (not Frost-proof Plants) till later notified.

Sincerely, MRS. MILES JONES.

Mt. Auburn, Iowa, R. F. D. No. 2.

DOVER, PA., R. F. D. No. 3, April 7, 1934.

Dear Sir: In regard to plants: Received them this morning and in fine shape. Thank you.

MRS. CHARLES R. SELL.

Dover, Pa., R. F. D. No. 3, York County.

PARIS, TEXAS, January 18, 1935.

P. D. FULWOOD,

Dear Sir: Send price list of Frost-Proof Cabbage Plants at once. Want plants by first of February. Have ordered plants from you for 25 years; never had any killed and always came true to order. So send catalogue at once and oblige.

R. L. EARNEST.

Paris, Texas. Rt. No. 7, Box 165.

OFFICE BUILDING OF P. D. FULWOOD

March 8, 1935.

P. D. FULWOOD, Tifton, Ga.

Dear Sir: I want to tell you about the Frost-Proof Cabbage plants I received from you last year. I set out 300 plants; the third day after I set them out we had a cold spell that went to zero in some places around here. At my place it registered 3 above. I did not cover my plants; 298 of those plants grew and matured. I had the finest small cabbage patch you ever saw, and I sure would have gotten in on that prize money if I had sent a picture. I neglected to do so. Your cabbage will not only withstand frost but will stand very freezing weather. You have the privilege of using this letter if you wish. Send me onions instead of cauliflower. I want some tomatoes and sweet potatoes later.

Very truly,

JOHN J. SLIPPNER.

March 29th.

DEAR MR. FULWOOD:

Your cabbage and tomato plants last year were the best I ever received. After looking at my cabbage, Mr. Howell sent for a few thousand this year at your place. The tomatoes were very large and brought as high as three dollars a basket. I took pictures of both patches but neglected to send them. The tomatoes were taken before the vines gave away for the large tomatoes. I will send for tomato and other plants a little later on. I would like to hear from you personally.

Yours truly, ALVIN R. BELL.

Dias Creek, Cape May Court House, N. J.

P. S.—I am sending these pictures to show you just what perfect plants will do.

FULWOOD'S PLANTS PRODUCE BUMPER CROPS

HOME OF P. D. FULWOOD

GOOD NEWS

KEARNEYSVILLE, W. VA.

Dear Sir: I have ordered a great lot of plants and will say that I have never ordered any that could compare to FULWOOD'S plants. I have always received good, strong plants and the best of service. I am now singing the praise of FULWOOD'S PLANTS. I have always received the best of treatment and will say LONG LIVE P. D. FULWOOD, THE QUALITY PLANT GROWER THAT ACTS FAIR AND SQUARE. Your plants not only grow, but they make a sure crop. THANKS A LOT, SIR!

Yours very truly, LAFAYETTE SMITH.

From now on I will never handle any other plants but Fulwood's.—L. S.

The high speed tractor seeders shown below can seed 50 acres per day. It takes thousands of dollars' worth of high class equipment to successfully operate my vegetable plant plantation, which contains nearly 2,000 acres of the very finest plant-growing soil.
